Dev Programs

Dev Technology's success is rooted in the idea that by working together, we accomplish more and, even more importantly, make better decisions that lead to innovative solutions.

Technical Development Program

A year-long development program designed for early career professionals to accelerate learning and development and position you for a successful career. Team members gain broad exposure to different types of positions and projects through shadowing, job rotations, and site visits while learning what it means to be a good teammate.

Diversity, Equity, Inclusion, Accessibility (DEIA)
We are committed to making an impact in the areas of Workplace, Education, Partnering, and Community as an organization. Our DEIA group was launched to provide learning opportunities and meaningful programs that celebrate all forms of diversity and provide a foundation for equity and inclusion. The program is open to all employees who have a desire to support the company live up to its commitments in this area and desire to help create rewarding learning opportunities around diversity, equity, inclusion and accessibility.

DENizens

The DENizens are a group of early to mid-career professionals within the Dev community coming together to Develop, Educate, and Network with one another. They aim to host and support activities and events that cater to the DENizen member in and out of the 'office', all while living Dev's core values and having fun.

DevNav

DevNav is here to help you navigate your career path at Dev Technology and strives to empower and support our managers and employees. They offers organizational support and guidance for employees through targeted professional opportunities to move within and across projects and roles. Employees gain experience and skills by taking on new responsibilities, which promotes flexibility, employee engagement, and retention.

Women in Technology at Dev (WITD)

The Women in Technology at Dev (WITD) community aims to empower women within their teams, Dev Technology, and the technology industry. This community provides a platform for advocacy, networking, technology education, leadership, and career development for women at all levels in technical and non-technical roles. WITD facilitates a wide range of professional development opportunities to empower and equip women with confidence, resources, and technical and professional skills to achieve their goals and embrace opportunities.

DevLab

DevLab is a community technology innovation center and accelerator. If you've got a technology-based idea you want to test, a problem you want to solve, or a team you want to work with, DevLab is the place. It offers hands-on training opportunities through internal corporate projects as well as opportunities to implement tools our clients are evaluating.

Dev University (Dev U)

Dev University is a resource to support your training and learning objectives, and has many training opportunities available, both online and through additional training Dev U offers occasionally.

Centers of Excellence

Dev Technology's Centers of Excellence provide our Project Managers and Team Leads with training and cross project support and learning to help them provide the best possible support to their clients and team members.

Fun Patrol

The Fun Patrol is a group of employees charged with planning company social events and activities. They are committed to sharing the fun at Dev Technology and keeping employees engaged with one another. They also organize volunteer activities and annual charitable campaigns.

Toastmasters

Toastmasters is a public speaking forum where members are empowered to improve their communication and leadership skills in a mutually supportive environment.
